Much time and money have been spent in what seems the almost valu endeavor to make hens produce eggs in cold weather. It requires but little experience with poultry to learn the fact that, under ordinary circumstances, hens cannot produce as many eggs in winter as in annumer. Summer is the natural time for the laying of eggs, and in order to increase winter production there must be reproduced for the fewls as nearly as possible the conditions that exist in summer. Mrs. John J. Layzell of Brandon, Vt., has evidently succeeded in doing this with her flock. She says: "I have been using Page's Perfected Poultry Food for the last three winters, and I find it the best poultry food on the market. I have tried several different kinds. but I got no eggs until I began to use

If you want to know more about this food and the best ways of using it. write to C. S. Page, Hyde Park, Vt., for his booklet, "Profitable Poultry." It will be went free, postpaid, to anyone mentioning this paper.

Notes on Speed.

The maximum speed acquired by the average person in swimming comfort ably is thirty-nine inches a second while carsmen in an eight cared boat acquire a speed of 197 inches in a second. Skaters average from nine to ten yards a second. The horse can gallop six miles in an hour for a considerable length of time. The swiftest dog in the world, the borzoi, or Russian wolfhound, has made record runs at the rute of seventy-five feet in a second, while the gazelle has shown measured speed of more than eighty feet a second, which would give it a could keep it up.
